■ **Database Developer / Technical Project Lead**

Highly skilled and experienced technical professional with a track record of managing on-time, on-budget projects that deliver substantial business benefits. Solid business background and innate understanding of how technology systems impact business processes. Known for ability to rapidly assess business needs and quick-start technology solutions.

■ Technology	Microsoft Access 97 and 2000	DAO	UML Use Case Studies
	SQL Server 7	ADO	UML Use Case Diagrams
	Crystal Reports 7	VBA	

■ **Projects**

DEVELOPER: Maxx Data Applications Advanced Business Solutions ● 2003 -- Present

PROJECT

- Prepare system and design requirements for the Maxx system.
- Write specifications and database definitions.
- Work with development and team and end users to complete system development.
- Continue to modify and enhance the system.

PLATFORMS

- Microsoft Access 97 and 2000, VBA, ADO, SQL Server
- Microsoft Excel 97, UML Use Case Studies, UML Use Case Diagrams

BENEFITS

- System helps clients recover "lost" money by identifying oversights, overpayments, and missed opportunities following expense audit conducted by ABS.
- On first project following implementation, slashed audit time in half -- from 3 months to 6 weeks -- and doubled recovered funds, thereby doubling revenue to the firm.

DEVELOPER: Microsoft Access Database

Municipal Government Systems ● 2003

PROJECT

- Stepped in on short notice to identify enhancement requirements, then define, specify, and complete enhancements to the Construx project management system

PLATFORMS

- MS Access 97, VBA, MS Excel 97

BENEFITS

- Responded to client urgency to complete system modification on a rapid timeframe... completed using only 23 of the 40 hours allocated.

DEVELOPER: RCASys

Cyber Saviors, Inc. ● 2000 -- Present

PROJECT

- Primary application developer for RCASys (Rebate Claims Audit System), completed 1999.
- Continue to modify and enhance the system.

PLATFORMS

- MS Access 97, VBA, ADO, SQL Server, Crystal Reports

BENEFITS

- RCASys delivers financial benefits to organizations within the complex managed-care environment... eliminates duplicate claims, flags errors, and spotlights potentially fraudulent claims. Clients include a major pharmaceutical manufacturer.

Y2K PROJECT COORDINATOR

Big Box Corp. (Modis consulting firm) ● 1998 --2000

PROJECT

- Work with employees and contractors in all Big Box business areas to define requirements for system functions and required results.

- Develop MS Access systems to analyze and compute project metrics.

PLATFORMS

- MS Access 97, MS Excel 97, ABT

BENEFITS

- Completed project on time, with no errors or incidents, and \$3 million under budget... ranked by Gotham Herald as one of the best Y2K projects in the Gotham metro area.

PROGRAMMER/ANALYST Gen-A-Rate Insurance Rating System AMC Consultants ● 1997 -- 1998

PROJECT

- Gather business requirements, prepare enhancement specifications, and develop enhancements to Gen-A-Rate Insurance Rating system for Acme Mutual Insurance Company.

PLATFORM

- GW Basic

BENEFITS

- Fully productive within 2 weeks of starting... bettering allotted ramp-up time by 6 weeks.

ANALYST

Star Health Systems Inc. ● 1996 -- 1997

PROJECTS

- Maintenance and enhancement of client and claims management systems.

PLATFORMS

- Maintenance and enhancement of client and claims management systems.
- MS Access, SQL Server, DB2

BENEFITS

- Maintenance and enhancement of client and claims management systems.
- Improved information-processing speed and accessibility to useable information through development of specialized

MS Access database systems.
