This multitalented and prolific abbess of a Benedictine abbey was an influential preacher, healer, scientist, composer, theologian, artist, and poet.

Saint Hildegard of Bingen is a 12th century woman. She refused to let society dictate her intellectual and spiritual passions. She penned groundbreaking works on natural health, believing that we came from the earth; therefore we must use the earth to heal. She composed soaring hymns and rich chants that are still performed and recorded today. She made many contributions to religion, the arts and science.
